

City of Pearland Gateway

Project Description

In 2010, the City of Pearland was the recipient of a beautification grant from the Houston-Galveston Area Council and the Economic Alliance – Houston Port Region. This grant was for the construction of a gateway that would identify Pearland as a member city of the San Jacinto Historic District.

The project included the design of gateway that can be prominently viewed from Pearland Parkway. The 40' gateway features cast stone construction with a 4' diameter star perched on metallic uprights.

In addition to design and construction document production, Knudson also served as project manager during the construction phase of the project.
