

Fort Bend County Master Plan 2015-2025

Project Description

Knudson LP was hired by the Fort Bend County Parks Department to complete their 10 year Master Plan update. Knudson worked with County and local park proponents to discuss and gather information on the existing and proposed parks within the County. Through a series of mapping exercises, public meetings, online surveys, and assessment of existing facilities, Knudson LP was able to develop a Master Plan report that assisted the County with long range planning. The Master Plan identified population trends and a needs assessment that will assist policy makers in ensuring that Fort Bend County's Parks Department meets the growing needs of the County.
