

Legacy Health Facility Location Analysis

Project Description

Legacy Community Health Services is a Federally Qualified Health Center that provides quality healthcare to low-income and underserved communities. They requested Knudson's assistance to provide a GIS analysis and series of maps for use in their site selection process. Specifically, the Client has indicated an interest in the following types of data: child health information, race, household income, number in household, etc. Most of this data was available from the 2010 American Community Survey provided by the Census Bureau.

Client:

Legacy Community Health Services

Complete

Services:

Planning / GIS
